## Foundations of Targeted Violence Prevention eLearning

The Foundations of Targeted Violence Prevention eLearning is a one-hour online training developed by the Department of Homeland Security, [National Threat Evaluation and Reporting Program Office](#) that empowers faculty, staff, and parents to:

- ✓ Recognize threats or potentially concerning behaviors
- ✓ Understand what behaviors may be displayed by a person who is on a pathway to violence
- ✓ Learn where to report information of concern
- ✓ Understand how the information reported will be used to keep our community safe
