Dear Ms. O'Brien and Mr. Randall:

I am pleased to present to the Michigan Legislature the 26th annual Asset Forfeiture Report. Michigan's asset forfeiture laws provide for the seizure of cash and property assets of drug traffickers and other criminal organizations when that property is obtained through illegal activity. The report this year is the third and final report to be submitted specifically under the Uniform Forfeiture Reporting Act, PA 148 of 2015, which became effective February 1, 2016.

PA 148 repealed the prior asset forfeiture reporting requirements and requires submission of a summary to the Michigan Department of State Police of the reporting agency's activities regarding forfeiture of property under the following sections of law: Public Health Code, MCL 333.7521-MCL 333.7533 (Controlled Substances); the Identity Theft Protection Act, MCL 445.79d; Revised Judicature Act of 1961, MCL 600.4701-600.4709 (Omnibus); and Revised Judicature Act of 1961, MCL 600.3801-600.3840 (Public Nuisance). Additionally, the type of information to be reported for each seizure and forfeiture of property was expanded to provide for greater transparency regarding the government seizure of private property.

Effective August 7, 2019, legislation signed this year will require a criminal conviction before some property seized under the Public Health Code can be forfeited to law enforcement. The 2020 Asset Forfeiture Report will include forfeitures under PA 148 of 2015 as well as PA 7 and PA 9 of 2019, and beginning with the 2021 report, will cover data from forfeitures under PA 7 and PA 9 of 2019.

This report covers the period from January 1, 2018, through December 31, 2018. This is the second report in which all reporting agencies submitted forfeiture data based upon the calendar year. Over \$15 million in cash and assets amassed by drug traffickers was forfeited. Asset forfeiture funds were used to support law enforcement by providing resources for equipment, personnel, vehicles, training, and supplies. Assets seized pursuant to this program also allowed some agencies to contribute monies to non-profit organizations that assist in obtaining information from citizens for solving crimes.

I submit this report for your information and review.

Sincerely,

A handwritten signature in black ink, appearing to read "J. M. Gasper", written over the word "DIRECTOR".

FOREWARD

This is the 26th annual Asset Forfeiture Report; it is the third and final of its kind written exclusively under the Uniform Forfeiture Reporting Act. Effective February 1, 2016, Public Act 148 of 2015 created the Uniform Forfeiture Reporting Act that repealed prior forfeiture reporting requirements under the Public Health Code, and mandated forfeiture reporting requirements under four sections of law: Public Health Code, MCL 333.7521 - MCL 333.7533 (Controlled Substances); the Identity Theft Protection Act, MCL 445.79d; Revised Judicature Act of 1961, MCL 600.4701-600.4709 (Omnibus); and Revised Judicature Act of 1961, MCL 600.3801-600.3840 (Public Nuisance).

Effective August 7, 2019, legislation signed this year will require a criminal conviction before some property seized under the Public Health Code can be forfeited to law enforcement. The 2020 Asset Forfeiture Report will include forfeitures under PA 148 of 2015 as well as PA 7 and PA 9 of 2019, and beginning with the 2021 report, will cover data from forfeitures under PA 7 and PA 9 of 2019.

This report is a compilation of Reporting Agencies' Government Asset Forfeiture Report online submissions by Michigan law enforcement agencies, prosecutors, counties, townships, cities, and villages to the Michigan State Police (MSP), Grants and Community Services Division (GCSD), Byrne Justice Assistance Grant (Byrne JAG) Unit. As a result of the expanded inventory and reporting requirements under the 2015 act, this year 6,616 forfeited property records were submitted to the MSP. The content of the records submitted is summarized for brevity in this report.

Of the 1,531 Reporting Agencies' Government Asset Forfeiture Reports submitted to the MSP, 236 law enforcement agencies reported receiving funds from asset forfeiture during this reporting period. More than \$13.5 million in cash was seized and over \$15 million in cash and property was awarded to law enforcement during this reporting period.

SCOPE OF THE REPORT

The Uniform Forfeiture Reporting Act defines “reporting agency” to mean one of the following: *(i) If property is seized by or forfeited to a local unit of government, that local unit of government means a village, city, township, or county. (ii) If property is seized by or forfeited to the State of Michigan, the state department or agency effectuating the seizure or forfeiture is the reporting agency. “Local unit of government” means a village, city, township, or county.* Asset forfeiture reporting submissions were solicited from every unit of government in the state of Michigan.

Section I: Identification

The following tables provide information regarding the types of agencies that were requested to submit an asset forfeiture report and the responses received as a result of that request:

Agencies	Agencies Submitting a Report Including Asset Forfeitures	Agencies Submitting a Report with NO Asset Forfeitures	Agencies that DID NOT Submit a Report
Local Police Agencies (466)	161	305	0
Multijurisdictional Task Forces (27)	26	1	0
MSP (1)	1	0	0
Sheriff’s Offices (83)	40	43	0

Therefore, the police agency executes and reports asset forfeitures on behalf of the unit of government. In some instances, the unit of government filed a null report for the police agency this year.

Section D: Net Total Proceeds

MCL 28.112(1)(i)

Report the net total proceeds of all property forfeited through actions instituted by the reporting agency that the reporting agency is required to account for and report to the state treasurer.

Amount	Net Total Proceeds
\$15,176,886	Net total proceeds reported to MSP for January 1, 2018, thru December 31, 2018

Note: This report includes only the net proceeds of property that was seized on or after the effective date of the act and forfeited during the reporting period.

Section E: Expenditures of Asset Forfeiture Funds under the Public Health Code

MCL 28.112(1)(j)(i)

The reporting agencies were requested to report the use of asset forfeiture funds as a percentage of the agency’s total expenditures of asset forfeiture funds in 13 broad categories: personnel, overtime, vehicles, equipment, federal grant match, informant fees, buy money, training, crime prevention and public outreach, animal expenses, supplies and materials, non-profit organizations, and other expenses.

Expenditure of Funds	
Category	Percentage
Personnel	6%
Overtime	2%
Vehicles	10%
Equipment	33%
Federal Grant Match	1%
Informant Fees	1%
Buy Money	4%
Training	8%
Crime Prevention/Public Outreach	1%
Animal Expenses	2%
Supplies and Materials	7%
Shared with other Agencies	5%
Non-Profit Organizations	1%
Other	19%
TOTAL	100%

The following are examples of reported expenditures by category:

Personnel: Asset forfeiture funds are used to fund community policing officers, multijurisdictional drug team personnel, local and county agency drug team personnel, and civilian personnel.

Overtime: Drug investigations are often initiated in the late evening/early morning hours. Certified methamphetamine laboratory responders, raid entry teams, and canine handlers are examples of frequently used personnel that require overtime payment.

Vehicles: The increasing cost of vehicles has been a major factor in increased police department operating cost budgets. The use of asset forfeiture funds has offset some of these costs.

Equipment: Law enforcement is seeing rapid changes in technology to assist agencies in working more efficiently and effectively. Records management systems, mobile data terminals, live stream video, and evidence collection enhancements are examples of expenditures from this category.

Federal Grant Match: Grant matching funds help increase the number of investigators and prosecutors dedicated to drug enforcement. Multijurisdictional task forces rely heavily on federal funds to operate and most of these funds require a cash match.

Informant Fees: Asset forfeiture funds are used for informant fees to assist in solving complex drug investigations.

Buy Money: Assembling cases against drug traffickers requires resources for undercover agents to conduct drug purchases, often over a period of time. Enforcement budgets may be inadequate for this expenditure. Asset forfeiture funds fill this gap and provide needed resources, especially for smaller law enforcement agencies.

Training: The majority of sworn personnel assigned to multijurisdictional task forces require formal narcotics investigative training. Law enforcement agencies are providing more training for personnel to keep current with new technological advances. Asset forfeiture funds can assist agencies with these costs.

Crime Prevention and Public Outreach: Law enforcement agencies are providing education and awareness programs throughout the state. These efforts may include presentations to schools and community groups.

Animal Expenses: Canines have proven to be a valuable asset to law enforcement. Law enforcement agencies and one multijurisdictional task force reported spending asset forfeiture funds on medical and maintenance costs for their canine programs.

Supplies and Materials: Supplies and materials are considered operational items that cost under \$5,000, including computers, copier leases, cellular telephones, and vehicle/building maintenance. Materials and supplies utilized by multijurisdictional task force personnel are not normally provided for in a participating agency's budget, so multijurisdictional task forces often use asset forfeiture funds to support their supplies and materials expenditures.

Shared with Other Agency: Some forfeitures result from joint investigations or multijurisdictional task force investigations; therefore, proceeds may be shared among participating agencies.

Non-profit Organizations: Many local police agencies and county sheriffs' offices reported contributing a percentage of their asset forfeiture funds to local crime alert organizations as allowed by MCL 333.7524(1)(b)(ii).

Other: Expenditures reported in this category were utilized for building/utility costs for narcotics unit operations, cellular telephone bills, global positioning tracker services, extradition costs, drug awareness kits, vehicle purchases, off-site storage units for toxic materials, dispatching consortium fees, aviation fees, and evidence collection materials.

F: Donated Grow Lights and Scales**MCL 28.112(1)(j)(ii)****Distribution to Schools**
