The Michigan Incident Crime Reporting Program

Incident Based Reporting – Collection of Data

In 1989, the Federal Bureau of Investigation (FBI) Uniform Crime Reporting (UCR) implemented the National Incident Based Reporting System (NIBRS). The Michigan Incident Crime Reporting (MICR) program is Michigan's version of NIBRS. The MICR system was established and certified by the FBI in 1994 and became the state's only method of reporting crime in 2005.

The FBI publishes annual state crime datasets in two different formats. The first, *Crime in the United States*, is the collection of summary-based data submitted to the FBI's Summary Reporting System (SRS). SRS collects complete data from ten offenses (Part 1 Crimes) and only arrest data for an additional 30 offenses. MICR's incident-based data is converted to summary-based data for inclusion in this report. The second, the NIBRS publication, is the incident-based collection. NIBRS collects complete data on 23 Group A offense categories made up of 52 specific offenses and collects arrest data on seven additional Group B offenses. MICR collects complete data on 106 offenses; 67 Group A offenses and 39 Group B offenses. In submitting state data to the NIBRS program, MICR rolls up these 67 Group A offenses into the corresponding 52 NIBRS Group A offenses and submits only arrest data for Group B offenses.

Crime counts may differ between local, state, and federal data collections for a variety of reasons including technical barriers to data transfer and differences in crime counting methodology, the data elements/offenses collected, and report dates. The submission deadline for 2020 crime data to be published/included in the annual report was March 1, 2021.

FBI's Caution in Ranking

Consumers of this data are discouraged from ranking individual jurisdictions, as doing so may lead to incomplete analysis creating misleading perceptions. For more information on this topic, see the FBI's "*Uniform Crime Reporting Statistics: Their Proper Use.*"

Section 1:
Counting Crime

Count Methodology for this Annual Report

Crime counts are determined differently depending on crime category:

- Crimes Against Persons - victim counts are used based on an offense hierarchy where only the most serious crime per victim is included in instances where the victim was connected to multiple offenses.
- Crimes Against Property, excluding FBI SRS Burglary categories (22001 and 22002) and Motor Vehicle Theft (24001) - offense counts are used:
    - For FBI SRS Burglary categories (22001 and 22002) the crime count is the sum of number of premises entered in the commission of burglaries.
    - For FBI SRS Motor Vehicle Theft (24001) the crime count is the sum of attempted motor vehicle thefts plus the number of vehicles stolen for completed motor vehicle thefts.
- Crimes Against Society and Crimes Against All Other - offense counts are used.

Victim counts reflect the number of victims for each particular offense file class based on an offense hierarchy where only the most serious crime per victim is included in instances where the victim was connected to multiple offenses.

Offense counts reflect the total discrete offenses submitted to MICR for each particular offense file class.

Incident counts reflect the total number of incidents submitted to MICR for each particular offense file class based on an offense hierarchy where only the most serious crime per incident is included in instances where multiple offenses were attached to an incident.

Examples of Crime Counts

Example 1: An individual is raped and then murdered.
- Murder is a higher ranked offense then rape.
- The rape is NOT included in total rapes.
- One murder is counted.

Example 2: An individual is raped, robbed, and then murdered.
- Murder is a higher ranked offense then rape; rape is not counted.
- Robbery (crime against property; hierarchy not used) is counted.
- One murder and one robbery are counted.

Example 3: One individual is raped, and a second individual is assaulted in one incident.
- Rape is counted for individual one.
- Aggravated assault is counted for individual two.
- One rape and one aggravated assault are counted.

Example 4: Two individuals are victims of larceny in one incident.
- One larceny is counted.

Note: The Domestic Violence Report uses "Victim Counts" logic, as described above, regardless of the underlying offense type. The Hate Bias Report and the Law Enforcement Officers Killed or Assaulted (LEOKA) report count all victims. No hierarchy is used.

Notes About the Data

Each year, the Michigan Incident Crime Reporting data is "frozen" on a specific date for purposes of publishing the annual Crime in Michigan report. The frozen set was created on March 11, 2020, for the 2019 Crime in Michigan publication. Any new crime data or updates to previous data submitted by agencies after the "frozen" date is not published in the report.

It should be noted that agencies that were unable to submit complete data by March 11, 2020, will show artificially low crime counts in this report. This may happen when an agency experiences a disruption to the submission of their crime data, for example during a period of transition between records management systems or when programmatic/technical complications interrupt data transfer processes. Therefore, users are cautioned against performing trend analysis or ranking agencies/cities based on their crime data, especially for those agencies/cities that indicate a significant increase or decrease in crime counts from one year to the next.

Users should also take into account the following factors when analyzing changes in the volume and types of crimes: missing data, population density, urbanization, composition of the population, stability of the population, modes of transportation, economic conditions, cultural characteristics, family cohesiveness, climate, strength and policies of the criminal justice system, and crime reporting practices of the citizenry.

When used properly, the data provided in this report can significantly contribute to management and planning activities at local, state, and federal levels, especially by state officials, law enforcement agencies, the legislature, and nonprofit organizations. Questions on the proper use of Michigan Incident Crime Reporting statistics can be directed to the Michigan Incident Crime Reporting Unit of the Michigan State Police, Criminal Justice Information Center, at MICRMail@michigan.gov.

Subsequent to the freezing of the data underlying this report, which occurred on March 1, 2021, the Benton Harbor Department of Public Safety modified their number of reported aggravated assault incidents. The reduction in the number of these incidents is not reflected in this report. For questions about this data, please contact the Benton Harbor Department of Public Safety.

Section 1:
Public Act 319 of 1968

UNIFORM CRIME REPORTING SYSTEM, ACT 319 of 1968

AN ACT to provide a uniform crime reporting system; to provide for the submitting of such report to the department of state police; to require submission of the report by certain police agencies; to require the reporting on wanted persons and stolen vehicles; to require the reporting of information regarding certain persons and unidentified bodies of deceased persons; to prescribe certain powers and duties of law enforcement agencies; and to vest the director of the department of state police with certain authority. **History:** 1968, Act 319, Imd. Eff. July 3, 1968 ;-- Am. 1985, Act 204, Eff. Mar. 1, 1986

28.251 Uniform crime reports; duties of police departments to file, contents.
Sec. 1. The police department of each city or village, any duly constituted police department of a township, and the sheriff's department of each county, once each month upon a date and form prescribed and furnished by the director of the department of state police, shall forward to the department of state police a crime report. Each reporting department shall report only on cases within its jurisdiction and upon which it is making, or has made, the primary police investigation. The report shall be called the uniform crime report and shall cover crimes reported and otherwise processed during the month preceding the month of the report. It shall contain the number and nature of offenses committed, the disposition of such offenses and such other information as the director of state police shall specify relating to the method, frequency, cause and prevention of crime. Under no circumstances shall the name of any person be reported. **History:** 1968, Act 319, Imd. Eff. July 3, 1968.

28.252 Compilation of monthly uniform crime reports; use.
Sec. 2. Upon receipt of the monthly uniform crime reports from the reporting agencies, the department of state police shall prepare a statewide compilation of the statistics contained therein and the resulting statistical compilation shall be available to any governmental law enforcement agency in the state, the judiciary committees of the Michigan state senate and the Michigan state house of representatives, and the federal bureau of investigation, upon request. The statistics made available through the uniform crime report shall be used for the purpose of studying the causes, trends and effects of crime in this state and for intelligence upon which to base a more sound program of crime detection and prevention and the apprehension of criminals. **History:** 1968, Act 319, Imd. Eff. July 3, 1968.

28.253 Voluntary crime reports; inclusion in compilation.
Sec. 3. Any governmental police agency, not falling within the description of those required to submit the monthly uniform crime report set forth in section 1, which desires to submit such a report, shall be furnished with the proper forms by the department of state police. When a report is received by the department of state police from a governmental police agency not required to make such report, the information contained therein shall be included within the monthly compilation provided for in section 2. **History:** 1968, Act 319, Imd. Eff. July 3, 1968.

28.254 Reports of wanted persons and stolen vehicles.
Sec. 4. The chief of police of each city or village and of each township having a police department, and the sheriff of each county within this state, shall report to the department of state police, in a manner prescribed by the department, all persons wanted by, and all vehicles stolen from, their primary police jurisdictions. The report shall be made as soon as is practical after the investigating department either ascertains that a vehicle is stolen or obtains a warrant for an individual's arrest or determines that they have reasonable grounds to believe that the individual committed a crime. In no case shall this time exceed 12 hours after the reporting agency determines that it has grounds to believe that a vehicle was stolen or that the wanted person should be arrested. **History:** 1968, Act 319, Imd. Eff. July 3, 1968.

28.255 Reports of apprehension or recovery.
Sec. 5. When at any time after making a report required by section 4 it is determined by the reporting agency that a person is no longer wanted because of his apprehension, or any other factor, and when a vehicle reported stolen under section 4 is recovered, the chief of police or sheriff of the reporting agency shall immediately notify the department of state police in a manner prescribed by the department. **History:** 1968, Act 319, Imd. Eff. July 3, 1968.

28.256 Inapplicability of act as to traffic misdemeanors.
Sec. 6. The provisions of this act do not apply to misdemeanor traffic cases or to persons wanted for misdemeanor traffic offenses, or for the violation of any city, village or township ordinance. The provisions of this act shall not be construed to in any way affect existing or future laws and procedures governing the reporting of persons wanted for traffic law violations or for the violation of city, village or township ordinances. **History:** 1968, Act 319, Imd. Eff. July 3, 1968.

28.257 Domestic violence incidents; report to state police; contents.
Sec. 7. The chief of police of each city or village, the chief of police of each township having a police department, and the sheriff of each county within this state shall report to the department of state police, in a manner prescribed by the department, the following information related to domestic violence incidents:
  (a) The number of assaults reported that involve an adult and a minor and the disposition of those offenses.
  (b) The number of assaults reported that involve either 2 male adults or 2 female adults and the disposition of those offenses.
  (c) The number of assaults reported that involve 1 male adult and 1 female adult and the disposition of those offenses.
  (d) The number of crimes reported that involve an individual and his or her spouse, his or her former spouse, an individual with whom he or she has had a child in common, an individual with whom he or she has or has had a dating relationship, or an individual who resides or has resided in the same household; and the disposition of those offenses. As used in this subdivision, "dating relationship" means that term as defined in section 2950 of the revised judicature act of 1961, 1961 PA 236, MCL 600.2950.
  (e) Other statistics the director of the department of state police considers necessary to obtain accurate and reliable data on the incidence of domestic violence in this state.

History: Add. 1978, Act 319, Imd. Eff. July 10, 1978 ;-- Am. 2001, Act 191, Eff. Oct. 1, 2002.

28.257a Crimes motivated by prejudice or bias; report.
Sec. 7a. The chief of police of each city or village, the chief of police of each township having a police department, and the sheriff of each county within this state shall report to the department of state police, in a manner prescribed by the department, information specified under section 1 related to crimes motivated by prejudice or bias based upon race, ethnic origin, religion, gender, or sexual orientation. **History:** Add. 1991, Act 172, Eff. Mar. 30, 1992

28.258, Sec. 8. DOES NOT APPLY TO UCR.

Section 2:
Contributing Agencies

Out of the 561 agencies in "MICR reporting" status, 549 contributed to the 2020 data collection. In this report, Michigan State Police Originating Agency Identification (ORI) number's are counted as one agency. For a complete list of contributing agencies CLICK HERE.

Note: Due to technical difficulties, transitions between record management systems, and personnel shortages, each year some agencies are unable to submit a full 12 months of data to MICR. For this report, agencies who submitted any data are considered contributing and their data is included in the statistics within the report.

Non-Contributing Agencies

The below listed agencies were in "MICR reporting" status but did not submit 2020 data. Though some do, Tribal and Railroad agencies are not required to submit to the MICR Program; they are not included on the below list. Tribal agencies are allowed to submit directly to the federal collection.

- Carleton Police Department
- Dundee Police Department
- Erie Township Police Department
- Ellsworth Police Department
- Luna Pier Police Department
- Monroe County Sheriff's Office
- Monroe Police Department
- Roscommon County Sheriff's Office
- South Rockwood Police Department

Agencies Reporting in More Than One County

Many agencies have jurisdiction in more than one county. In 2020, the below agencies submitted at least one incident for more than one county. When reviewing the Offenses and Arrests by County/Agency tables, found in supplemental reports and not in this publication, users will need to locate the crimes in the other counties to obtain the agency counts for the below listed agencies.

Section 2:
Law Enforcement Agency Personnel Counts

The following table reflects the number of full-time sworn officers and full-time civilian employees on a Michigan law enforcement agency's payroll as of October 31, 2020. 532 State, County, Local, and Tribal law enforcement agencies collectively reported a total of 24,985 law enforcement employees in 2020. This marks a 0.3% decrease from the 2019 employee count of 25,063*. Of these 24,985 employees, 72.0% are sworn officers, while civilian employees make up the remaining 28.0%.

Michigan Index Crimes and Rates

The FBI, as part of its SRS annual report, tracks Part 1 Index Violent and Property crimes. Violent Index crimes consist of Murder, Rape, Robbery, and Aggravated Assault. Property Index crimes consist of Burglary, Larceny, Motor Vehicle Thefts, and Arson. Though MICR collects and reports NIBRS data, for its annual report it uses hierarchical counting rules and groups its offense file classes into the corresponding Index Crime categories in order to simulate the Index Crime Reports published by the FBI's SRS Crime in the United States.

Note: Because the most recent FBI Crime in the United States reports do not include Arson in their calculation of property crime rates, Arson is not included as an index crime in this report.

2020 Summary:
- Violent crime increased 12.0% from 2019, and increased 8.6% since 2016, primarily led by a significant increase in aggravated assaults. Murders were also up significantly in 2020.
- Robbery decreased steadily over the five-year period and Rape continued to decrease in 2020 since its peak in 2018.
- Property crime decreased 12.0% from 2019 and decreased 25.7% since 2016.
- Burglary, Larceny, and Motor Vehicle Theft each decreased significantly in the five-year period, though Motor Vehicle Thefts increased slightly from 2019 to 2020.

*As of this year, counting logic for Index Crime burglaries has changed to closer resemble the logic the FBI uses. For this chart, burglaries were recalculated using this updated logic (counting premises entered per offense instead of offenses) retroactively through 2017. Data prior to 2017 is in a different format and could not be converted.
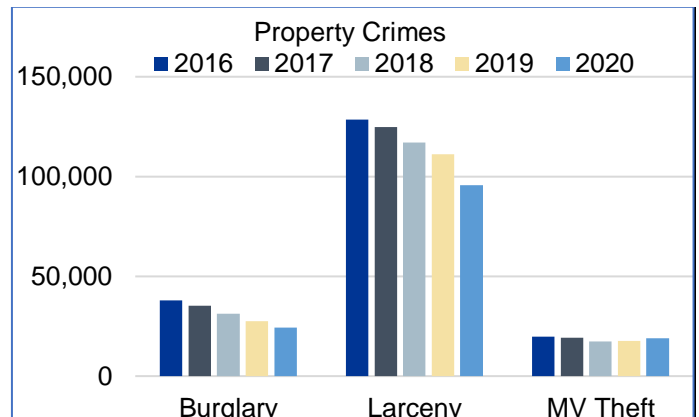

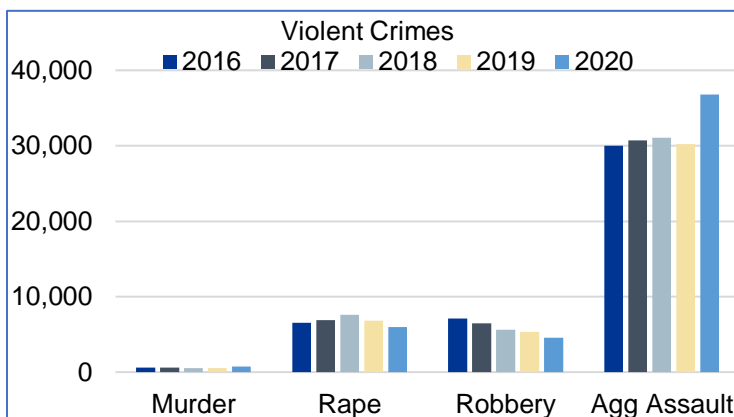

Note: The Violent and Property crime graphs above use different scales.

Crime Rates compare the number of crimes in relation to the population counts provided by the U.S. Census Bureau and is defined as the number of crimes per 100,000 population.

Section 3:
Statewide Crimes at a Glance

The following table displays crime counts, victim counts, offense counts, and incident counts for all 106 MICR offense file classes, ordered by crimes against persons, crimes against property, crimes against society, and crimes against all others.

The "Crime Count" column displays the official number of crimes by each MICR offense file class. The crime count is determined the following ways: 1. For Crimes Against Persons, victim counts are used based on an offense hierarchy where only the most serious crime per victim is included in instances where the victim was connected to multiple offenses; 2. For Crimes Against Property excluding FBI SRS Burglary categories (22001 and 22002) and Motor Vehicle Theft (24001) offense counts are used; 3. For FBI SRS Burglary categories (22001 and 22002) the crime count is the sum of number of premises entered in the commission of burglaries; 4. For FBI SRS Motor Vehicle Theft (24001) the crime count is the sum of attempted motor vehicle thefts plus the number of vehicles stolen for completed motor vehicle thefts; 5. For Crimes Against Society and Crimes Against All Other offense counts are used.

The "Victims" column counts the number of victims for each particular offense file class based on an offense hierarchy where only the most serious crime per victim is included in instances where the victim was connected to multiple offenses.

The "Offenses" column counts the total discrete offenses submitted to MICR for each particular offense file class.

The "Incidents" column counts the total number of incidents submitted to MICR for each particular offense file class based on an offense hierarchy where only the most serious crime per incident is included in instances where multiple offenses were attached to an incident.

Section 3:
Statewide Crime Clearance

The following table displays incident counts, incidents cleared, and clearance rate for all 106 MICR offense file classes, ordered by crimes against persons, crimes against property, crimes against society, and crimes against all others.

The "Incident Count" column counts the total number of incidents submitted to MICR for each particular offense file class based on an offense hierarchy where only the most serious crime per incident is included in instances where multiple offenses were attached to an incident.

The "Incidents Cleared" column counts the total number of incidents displayed in the Incident Count column that were cleared by arrest or exceptional clearance.

2020 - Murder Non-Negligent Manslaughter

Definition: The FBI's UCR program has defined Murder as the willful killing of one human being by another. The classification of this offense is based solely on police investigation as opposed to the determination of a court, medical examiner, coroner, jury, or other judicial body. Deaths caused by negligence, suicide, accident, or justifiable homicide are not included in this offense category.

2020 Summary:

- 750 crimes reported: 1.6% of all violent indexed crimes.
- 36.6% increase from 2019, and a 28% increase from 2016.
- June and July had the highest counts, February had the lowest.
- Crime rate was 7.4 for every 100,000 persons.
- 42% clearance rate; 693 incidents reported, 291 cleared by an arrest or exceptional clearance.

Definition: The MICR Program collects Criminal Sexual Conduct (CSC) for various degrees based on MCLs 750.520b and 750.520d. They are defined as the sexual penetration of a person, forcibly and/or against that person's will; or not forcibly or against the person's will where the victim is incapable of giving consent because of his/her temporary or permanent mental or physical incapacity. MICR offense file classes 11001 – 11006, as shown below, make up the FBI SRS violent index crime category Rape.

Note: CSC 1st and 3rd Degree are differentiated by the weapon involved and the degree of injury.

2020 Summary:
- 5,994 reported crimes: 12.5% of all violent indexed crimes.
- 12.2% decrease from 2019.
- July was the highest reported month; April was the lowest.
- Crime rate was 59.5 for every 100,000 persons.
- Clearance rate 22%; 5,595 incidents reported, 1,237 cleared by arrest or exceptional clearance.

Definition: Robbery is the taking or attempting to take anything of value under confrontational circumstances from the care, custody, or control of a person or persons by force, threat of force, or violence and/or by putting the victim in fear of immediate harm.

Robbery is a type of theft committed in the presence of the victim. The victim is directly confronted by the offender and is threatened with force or is put in fear that force will be used. Robbery involves a theft or larceny but is aggravated by the element of force or threat of force. Because force is or can be involved, it is included within the violent crime calculations. MICR offenses included for this report are 12000 and 12001.

2020 - Aggravated Assaults

Definition: Aggravated/Felonious Assault is an unlawful attack by one person upon another wherein the offender uses a weapon or displays it in a threatening manner, or the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness. The use or attempted use of a dangerous weapon in an assault or the serious injury inflicted upon the victim is what separates this offense from assaults categorized as Simple Assaults. MICR offenses included for this report are 13002 and 13004.

2020 - Burglary

Definition: This report combines Burglary-Forced Entry and Burglary-Entry Without Force. Burglary-Forced Entry is the unlawful forcible entry of a building or other structure with the intent to commit a theft or felony. Burglary-Entry Without Force is the unlawful entry, without force, with the intent to commit a theft or felony. Neither apply to motor vehicles or coin boxes. As of this year, counting logic for Index Crime burglaries has changed to closer resemble the logic used by the FBI. For these charts, burglaries were recalculated using this updated logic (counting premises entered per offense instead of offenses) retroactively through 2017. Data prior to 2017 is in a different format and could not be converted.

2020 Summary:

- 24,246 reported crimes: 17.4% of all indexed property crimes.
- 15.6 decrease from 2019.
- August had the highest counts, February had the lowest.
- Crime rate was 240.6 for every 100,000 persons
- 10.1% clearance rate; 2,450 incidents cleared by arrest or exceptional clearance.

2020 – Hate/Bias Crime

Definition: A Hate Crime is a criminal offense committed against a person or property which is motivated in whole or in part, by the offender's bias against a race, ethnic/national origin, religion, sexual orientation, or mental/physical disability group.

Note: Michigan's Ethnic Intimidation Act, Act 328 of 1931, as amended, Section 750.147b, was written to allow for stricter penalties for hate crimes. Ethnic intimidation is a felony punishable by imprisonment for not more than two years, or by a fine of not more than $5,000, or both. This act requires that all offenses be reported within an incident.

An incident is one or more offenses (crimes) committed by a person or group of persons acting together, at the same time and place. A victim of multiple hate crime offenses is counted for each offense.

2020 Summary:

- 556 incidents.
- 683 victims; 485 were individuals.
- Race was the highest bias category at 73.5%.
- Anti-Black/African American was the highest group at 270.

2020 – Domestic Violence

Note: In 2013, the MICR Unit implemented the Domestic Violence (DV) indicator field. The below counts are incidents where the DV indicator is equal to Yes and the victim to offender relationship was one listed in the "Victim to Offender Relationship" chart. Relationship totals will not match the victim totals; some incidents had multiple offenders but only one victim. Weapon is tied to victims, not offenses.

Michigan Incident Crime Reporting, 2020 Crime Data Annual Report

Section 6:
Data Element Version Change Log

MICR implemented versioning to the schematron in April of 2019. The first version (Base) was followed by new versions approximately every six months. Though MICR is currently only accepting the two most recent versions, during 2020, MICR was accepting all versions to allow vendor updates. The following highlights important data element additions and removals with effective dates; implementation of these elements may have a direct effect on the statistics produced in this report.

4/17/2019, Version 1.0.0:
- Bias: removed "Anti-Homosexual" (users asked to use Anti-Lesbian or Anti-Gay) and added "Anti-Transgender" and "Anti-Gender Non-Conforming"
- Race: updated "Asian/Pacific Islander" to "Asian" and added "Native Hawaiian or Other Pacific Islander"
- Victim to Offender Relationship: removed Homosexual

10/16/2019, Version 1.3.0:
- Offense: added 12001 – Car Jacking and 13004 – Non-Fatal Shooting

9/2/2020, Version 1.4.0:
- Bias: added "Anti-Law Enforcement"
- Victim Circumstance: added "Cyberbullying Resulting in Death"

Section 6:
Glossary

A	**Adult** - The definition differs under Federal and Michigan law. Federal law states an adult is a person who is 18 years of age or older. Michigan law states, an adult is a person who is 17 years of age or older. *(In this report, the definition follows Michigan law.)* **Aggravated Assault** - An unlawful attack by one person upon another wherein the offender uses a weapon or displays it in a threatening manner, or the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness. **Animal Cruelty** - Intentionally, knowingly, or recklessly taking an action that mistreats or kills any animal without just cause, such as torturing, tormenting, mutilation, maiming, poisoning, or abandonment. **Arrest** - To seize, hold, summon or cite by legal authority. **Arson** - To unlawfully and intentionally damage, or attempt to damage, any real or personal property by fire or incendiary device. **Automatic Weapon** - Any firearm which shoots, or is designed to shoot, more than one shot at a time by a single pull of the trigger without manual reloading.
B	**Burglary** - The unlawful entry of a structure to commit a felony or a theft. Breaking and entering into motor vehicles is not included in this classification.
C	**Clearance** - The solving of a particular crime, either by the arrest of the offender or through exceptional means. **Clearance by Arrest** - When an offender has been identified with sufficient evidence to be formally charged. **Commercialized Sex/Prostitution** - Illegal activities related to engaging in normal or deviate, heterosexual or homosexual, sexual acts for profit or gain. **Computer Hacking/Invasion** - Wrongfully gaining access to another person or institution's computer software, hardware, or networks without authorized permissions or security clearances. **Crime Rate** - Relates the incidence of crime to population so that it can be compared uniformly without regard to population size. *(In this report, rates are calculated by dividing the number of crimes by the population of the service jurisdiction. The calculated number is then multiplied by 100,000.)* **Criminal Sexual Conduct, 1ST DEGREE** - See Michigan Compiled Law (MCL) 750.520b. **Criminal Sexual Conduct, 2ND DEGREE** - See MCL 750.520c. **Criminal Sexual Conduct, 3RD DEGREE** - See MCL 750.520d. **Criminal Sexual Conduct, 4TH DEGREE** - See MCL 750.520e.
