

S4SD

Why S4SD?

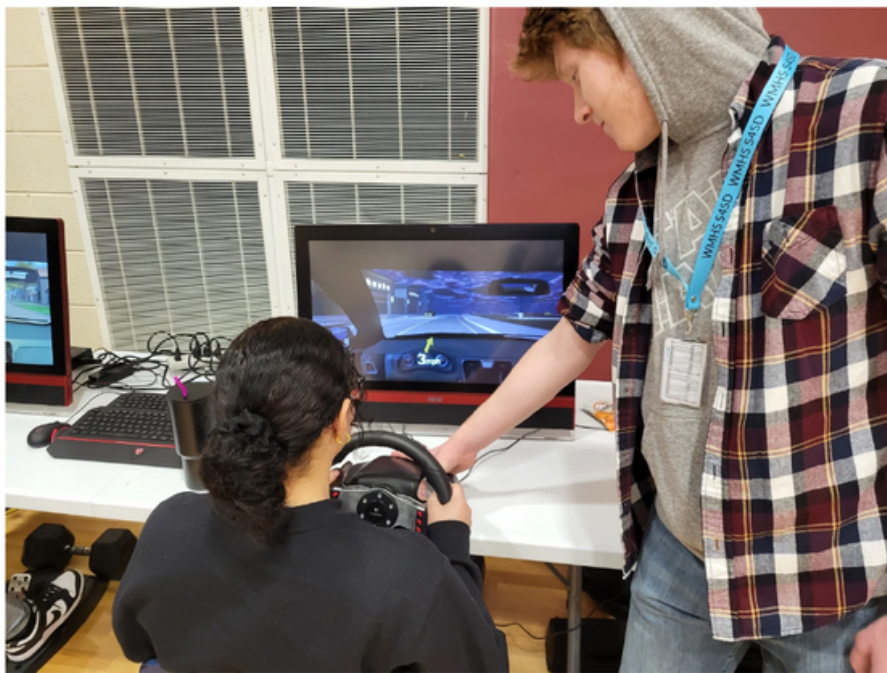

BY KAYLA THOMAS-WRIGHT

Strive for a Safer Drive is a high school safe driving initiative for teens led by teens! This year, 37 Michigan high schools were accepted into the 2022-2023 program. Students create a traffic safety awareness campaign to educate their peers on the importance of safe driving. All participating schools received \$1,000 to purchase campaign materials. This month S4SD had the privilege of visiting Memphis Senior High School, Dakota High School, Lake Orion High School, Southeastern High School, and Warren Mott High School.

WARREN MOTT

Warren Mott High School hosted its safe driving initiative event - The Don't Rock the Boat Safe Driving Seminar. Students focused on distracted driving before spring break. The event impacted over 1,000 students providing opportunities to learn about sobriety tests, virtual impaired and distracted driving, and taking a pledge to drive safely. Senior students admit it is difficult for most people to ignore their phones while driving but stress the importance of eliminating distractions.

”Most of the kids think they will be able to easily handle the sobriety test, but not one has passed yet”
