

## 2021 Michigan State Police Crime Clearance and Crime Count Comparison Report

Data contained within this report represents crime reported by the Michigan Department of State Police to the Michigan Incident Crime Reporting Program (MICR) as of March 1, 2022.

\*Official MICR Crime Counts use the following logic: for Crimes Against Persons, Victim Counts are used based on an offense hierarchy where only the most serious offense per victim is counted; for any other crimes, Offense Counts are used except for the three file classes noted below:

- Crime Counts for MICR 22001 and 22002 (Burglary) are determined by the total premises entered during the commission of those offenses.
- Crime Counts for MICR 24001 (Motor Vehicle Theft) are determined by the sum of total attempted motor vehicle thefts and the total vehicles stolen.

The "Total Arrests" and "Except. Clears." columns indicate the number of incidents in the "Total Incidents" column that were cleared by arrest or by exceptional clearance.

The clearance rate is determined by summing total incidents with arrests and total incidents involving exceptional clearances and dividing by total incidents.

The Crime Count percent change is calculated using the formula:  $((2021 \text{ Crime Count} - 2020 \text{ Crime Count}) / 2020 \text{ Crime Count}) \times 100$

Beginning this year, updated previous year clearance rates are being provided to compare to current year clearance rates. The 2020 clearance rates in this report have been updated through March 1, 2022, to account for criminal incidents that were cleared to arrests or exceptional clearances after the data deadline for last year's report (March 1, 2021). Users should be aware that because criminal incidents that occurred in 2020 have had an additional year to be investigated to the point of arrest or exceptional clearance compared to 2021 incidents, 2020 clearance rates may automatically be higher in some areas. Overall, the 2020 clearance rate increased nine percentage points since the creation of the 2020 Michigan State Police Crime Clearance and Crime Count Comparison Report. A similar increase is expected for the 2021 clearance rates when the 2022 report is created.
