

# MI Tri Share Status Update

## JULY 2021

MI Tri-Share  
CHILD CARE

## Implementation

Hubs continue to modify and update documents and procedures for enrollment, including finalizing paperwork, as well as creating flyers and FAQs to ease the process for enrollment.

Hubs are collaborating with local organizations and providers to aid in outreach efforts to boost Tri Share engagement.

## Enrollment Status

One employer is fully enrolled and is actively recruiting employees. Other employers continue to indicate interest, but have not fully signed on.

Some factors contributing to the delay between employer interest and enrollment include the summer-time rollout of the pilot (during which some HR employees are away) and employers needing time to organize their budget to participate.

## Updates

Progress has been made to attempt expanding Tri Share to southeast Michigan with private funding.

Hubs continue to meet and report on progress on a monthly basis.
