**Michigan Strategic Fund  
Section 1042 Report  
Fiscal Year 2020 First Quarter Report  
October 1, 2019 – December 31, 2019**

Section 1042 of the General Government Budget, Public Act 56 of 2019, requires the Michigan Strategic Fund (MSF) to report quarterly on the amount of funds for Business Attraction and Community Revitalization considered appropriated, pre-encumbered, encumbered and expended, including all previous appropriations for Business Attraction and Community Revitalization, or a predecessor, that were considered appropriated, pre-encumbered, or expended.

Funds are pre-encumbered when the MSF enters into negotiations with a company regarding an incentive. This category also includes those instances where offer letters have been issued or the MSF has approved an incentive but has not yet executed an agreement. Funds are encumbered after a formal written agreement between the MSF and a company has been fully executed. Funds are expended when the MSF determines that a company has met all requirements of a project, as set forth in the formal written agreement, and funds have been disbursed.

For fiscal year 2020, the MSF was appropriated a total of \$79,379,900 for Business Attraction and Community Revitalization. The amounts that have been pre-encumbered, encumbered and expended as of December 31, 2019, including previous appropriations, are detailed in the following table.

Section 1042 also requires a list of appropriations for Business Attraction and Community Revitalization that were considered appropriated, pre-encumbered, encumbered or expended that have lapsed back to the MSF for any purpose. To date, no funds have lapsed back.
