

MPART Citizens Advisory Workgroup

September 14, 2021

Housekeeping

- Please keep your mic/phone muted unless speaking
- Only use the “raise hand” and/or “chat” function for questions or to request to speak
- Cameras are optional
- This meeting is being recorded

Agenda

- Welcome and housekeeping – 5 min
- MPART Updates –15 min
- Public Notification Recommendation – 15 min
- Preventative Measures Brainstorm – 15 min
- CAWG Subcommittee Updates – 10 min
- MPART Agency Updates – 15 min
- Community Feedback– 15 min

- Sounding board for process improvements
- Provide solutions to identified concerns
- Statewide focus for PFAS issues not site specific
- Open communication that seeks to understand a variety of perspectives

A hand is holding a white rectangular sign with the words "GROUND RULES" written in large, bold, blue capital letters. The sign is positioned in the lower right quadrant of the image. The background is a vibrant blue and purple gradient, featuring a stylized globe of the Earth in the center, surrounded by various representations of viruses and bacteria, including spherical particles and spiky structures. The overall aesthetic is clean and modern, with a focus on environmental and health-related themes.

**GROUND
RULES**

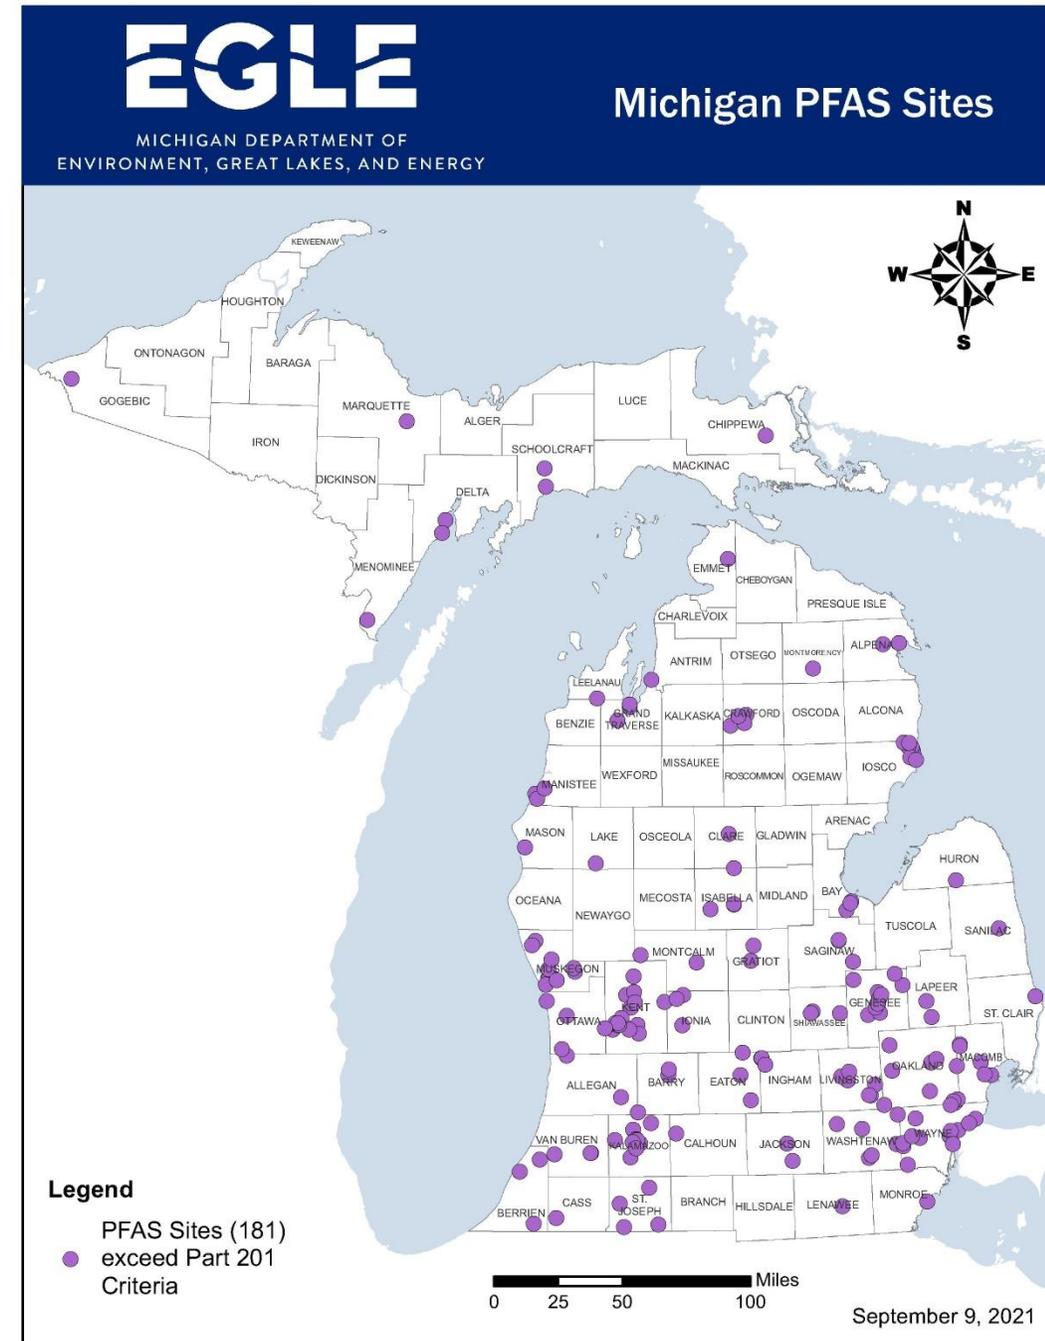

MPART Update

- Renae Mata – Resigned from the CAWG
- Welcome New Member
 - Jeremy Welsch – Ferndale
- Part 201 Criteria

New Sites

- Key II Industrial Building – Elk Rapids
- JB Sims Generating Station – Grand Haven
- Former Hayes Lemmerz International Inc – Ferndale
- Stroh Parking Structure – Detroit
- Bray Road Site – Genesee Township
- Cyb Tools – Canton
- 3523 Heights-Ravenna Road – Muskegon
- Pollard Landfill – Montrose Township
- North State Road Area of Interest – Ionia
- *Many sites working through the process*

Public Notification Recommendation

- **MPART PFAS Site Identification** - 32 new sites since 10/1; Meeting w/local officials and/or Townhall
- **MPART PFAS Area of Interest** – 5 since 10/1; meeting w/ local officials or townhall
- **MPART Website:**
 - Frequently update the “trending topics” on the home page
 - Updated Drinking Water Pages
 - Updated Site Investigation Pages (181 MPART Sites)
 - Added Site Lead contact information; residential wells
 - Updated Topical Workgroup Pages
 - Updated Public Meeting Calendar
 - Weekly updates to the MPART List Serv
- **MPART Public Outreach:**
 - MPART Citizens Advisory Workgroup Meetings once a month
 - Individual Community Advisory Groups (Wurtsmith, Wolverine, Kalamazoo River, etc.)
 - Participation in Public education opportunities: Presentations (8 in 2021)
 - 6 sites have their own list serves
- **MPART Legislative Outreach:**
 - Updates at local officials calls
 - Regular email updates on pending investigations and sampling
 - Participation in Townhalls

Implementation of Public Outreach

Precautionary Residential Well Sampling Protocol

- In the site-specific situations **when no onsite groundwater data is available** but:
 - Location is known to have used AFFF or PFAS compounds
 - Location is highly suspected to have PFAS releases
 - Location may have associated data that indicates a PFAS release or contamination
 - Location is proximal to vulnerable drinking water wells
 - Location may be proximal to sensitive receptors
- Protocol is to:
 - Develop a sampling plan for potential at-risk homes in coordination w/ local public health and DHHS
 - Hold Local Officials call
 - Implement Sampling Plan & receive results
 - Hold Townhall call to discuss results and next steps for additional sampling

*This has been done for several airports and is currently being evaluated for landfills
(the high priority ones from last year)*

Precautionary Residential Well Sampling

	Number of Residential Well Samples	Above Criteria (at the time)
Gogebic Airport	29	1
Delta County Airport	10	1
Dickinson County Airport	10	0
Marquette County Airport	57	1
Oakland County Airport	27	6
Lansing Capital Airport	10	0
MBS Int'l Airport	4	0
North State Road AOI	13	5
Wixom WWTP Biosolids Area	30 to be sampled	TBD
Springfield Township Dump	25	Results pending
Saranac Landfill	Being planned	TBD

Upcoming Changes

- Website: Surface Water, Fish, Drinking Water Data on GIS Map
- PFAS 101 Video – finalized version coming soon
- Precautionary residential well videos including site investigation updates
- Provide information to the CAWG on new sites, area of interests, precautionary sampling efforts

Potential Public Notification Opportunities

- Area based networks to act as clearing houses for investigation notifications for regions.
- CAWG member information sharing to local communities.
- A series of animated videos about PFAS connected to the PFAS cycle diagram, showing what industries might produce PFAS, how PFAS gets into surface water and groundwater and that refers to (and put online) an interactive map that allows residents to see if they live near a PFAS site or any likely PFAS-producing sites (landfill, plater, etc.). This will help them make a decision about whether they want to sample their own well and the videos can show them where to get sample kits and how DHHS can help them interpret their results.

Preventative Measures Brainstorm

CAWG Subcommittee Updates

Engaging the Public Subcommittee
Web Review Subcommittee

MPART Agency Updates

Community Feedback

- Have you participated in any outreach events?
- Recent lessons learned?
- New recommendations?

**Especially related to engaging, empowering, and educating residents*

- Next CAWG meeting will be October 12th
