Abby,

Please find attached the requested summary and associated documents. Let me know if you have any questions or need anything else.

Best,
Lori

MEMORANDUM

To: Abigail Hendershott, MDEQ

From: Loretta Powers, Rose & Westra/GZA

Date: April 18, 2018

File No.: 16.0062335.51

Re: Municipal Water Connections and Private Wells Evaluation

This memo is being provided at the request of the MDEQ to summarize the steps taken to identify the drinking water source for all parcels in the House Street, Rogue River, and Wolven/Jewell Study Areas. This evaluation was performed to confirm whether each improved parcel in these areas utilizes an on-site private potable well or is connected to municipal water service.

CANVASING

As the House Street, Rogue River, and Wolven/Jewell study areas were established or expanded, R&W/GZA completed door to door canvassing to notify residents that if they were on a well, Wolverine World Wide, Inc. (Wolverine) would like to sample the well, provide short term alternate water (bottled water and gift cards for additional water), as well as provide contact information to set up water delivery service. During the canvassing, R&W/GZA recorded by address if the homeowner/resident stated if a well or municipal water is used. If the resident was not present during the original canvassing, R&W/GZA made several follow up attempts to contact those residents.

MUNICIPAL WATER RECORDS

Prior to and during canvassing each area, R&W/GZA obtained municipal water connection data from Plainfield Township. These addresses were cross checked via the Kent County GIS. Any addresses that were not clear were visited during the canvassing efforts specifically.

The City of Rockford previously indicated to R&W/GZA that all addresses in the City are connected to municipal water. However, during the course of this evaluation R&W/GZA identified some private potable wells are located within the City of Rockford. The City then provided R&W/GZA with a list of known private wells. With the exception of one address which had already been sampled by R&W/GZA, the known private wells are not located in the above-listed study areas.

GIS CROSS CHECK

After completing canvassing and data entry as well as obtaining information from Plainfield Township and the City of Rockford (both lists of wells, municipal water connection records, and supplement correspondence), R&W/GZA ran a GIS report listing all parcels within the two study areas that were not labeled as either sampled, sampling pending, or on municipal water. Those parcels were revisited to confirm if improvements (such as houses

or other buildings) were present. If a parcel was deemed vacant no further action was taken. Four improved addresses were identified that had not been contacted and were not connected to municipal water. Those addresses were visited on March 27, 2018. Two addresses were sampled and offered alternate water, one was confirmed connected to municipal water, and the fourth appeared vacant. A note was left at the presumably vacant address.

R&W/GZA then mapped the prior well sampling results, pending sampling parcels, vacant, and municipal connections. The map was then reevaluated for any missed parcels. R&W/GZA was able to confirm all samples are coded based on their status as of March 27, 2018.

SUMMARY

Based on these efforts, R&W/GZA has reasonable confidence that all known potable wells within the House Street, Rogue River, and Wolven/Jewell Study Areas have either been sampled or contact has been made with the parcel owner to attempt sampling. Obviously, illicit wells or former wells not currently used for potable water have not been identified.

Submittals with this memo include municipal water connection spreadsheets from Plainfield Township and a list of wells and correspondence from the City of Rockford. Additionally, the summarized information has already been provided to the MDEQ via weekly GIS data updates to AECOM.

Jamie,

Any chance I can get the CAD or GIS file for this map? as we need to use it to integrate into our work plans for the source investigations at both the former Tannery Site and the House Street Site.

Chris,

Another request for you.

I thought that you had sent me a Rockford Water Distribution Map - in fact I'm sure you did, as I have a copy of it printed on the wall. But I cannot seem to find that file, could you possibly send me another one, please?

Thanks,

Kirk

I wish we had a list but for some reason nobody ever kept one. All we did several months ago is look at what homes in the area did not have water meters and we also have a list of homes that are on septic. Between the two and are collective heads we put list together. So there may be more and if you come across any in question let me know and we will confirm.
