Source Investigation/Waste Removal Activities Monthly Progress Report

On behalf of Wolverine World Wide, Inc. (Wolverine), this memo is a monthly progress report as agreed upon in Mr. John Byl's July 9, 2018 letter entitled *Response to May 29 Correspondence regarding Tannery Meeting Summary and Action Items*.

This Monthly Progress Report (MPR) summarizes actions and available data through July 3, 2019 for the Source Investigation/Waste Removal Activities associated with certain parcels located in the vicinity of the House Street Former Disposal Site (1855 House Street NE).

Preliminary scopes of work for parcels on the south side of House Street have been prepared and provided to Wolverine for review. R&W/GZA will review the scope of work with EGLE, EPA, MDOT, and the property owners and their counsel for approval prior to implementing any removal actions. An on-site meeting to review the scope of work with one resident, EGLE, and EPA is scheduled for July 10, 2019.

R&W/GZA is also working on approval for waste disposal, which may require additional waste characterization sampling.

R&W/GZA and Wolverine are evaluating possible actions for additional investigation/remediation at the Imperial Pine Parcel (7900 Imperial Pine Drive NE).
