Subject: Resignation From The MICRC
Date: Friday, December 22, 2023 10:02:01 AM

To MDOS, the MICRC and the Citizens of Michigan:

Unfortunately I have reached a point in my life, because of health concerns, where I have to take a step backward and in relation to the MICRC that necessitates resigning my position as Commissioner effective December 31, 2023.

My health has seriously deteriorated and I continue to need additional support from my family. These health conditions and continued support from my family are of utmost importance to me.

I would like all concerned to know that the MICRC has done a very commendable job. Many citizens agree with the deliverables and see our work as a commendable effort for the State of Michigan. While others would have rather seen different results, I am sure they support the processes the MICRC used in developing its deliverables.

I am proud to have been a Commissioner for the inaugural MICRC. It has been an honor working with each of the members of the Commission as well as one of the key moments of my life.

Douglas J. Clark, Jr.
Commissioner, Michigan Independent Citizens Redistricting Commission
