

View Completion Receipts

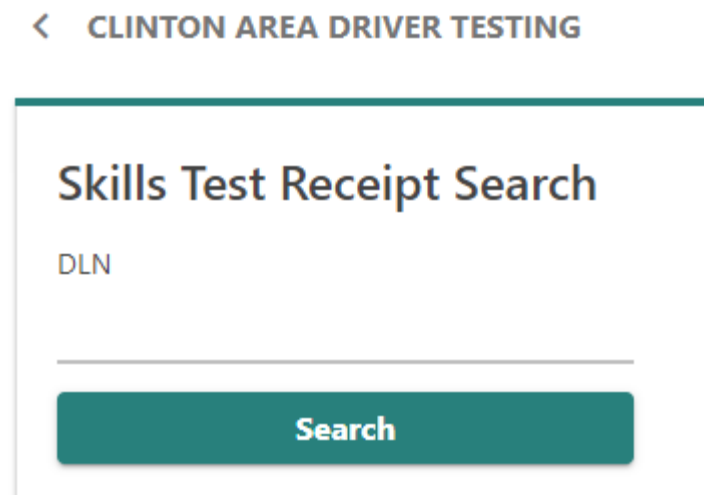

Driving Skills Test Receipts can be printed from e-Services at any time after individuals are scheduled for a test. Examiners should only give completion certificates to individuals once they pass the test(s). Driving skills test receipts can only be reprinted 365 days after the test was administered. After 365 days, the receipt will not be eligible to be printed.

To view completion receipts on e-Services:

1. Select the **View Completion Receipts** hyperlink from the Driver Testing Business e-Services home page.

2. After selecting the hyperlink, the next screen allows you to search for a skills test receipt by DLN. Enter the driver's license number of the desired individual and select the search action button.

3. Once you have selected the search action button, all skills test receipts associated with that DLN will appear.
