

## Commercial Trucks Not Registered by Gross Vehicle Weight (GVW)

- Privately-owned pickup trucks and vans over 8,000 lbs. (empty weight) not used commercially.
- Passenger vehicles used commercially to transport goods, wares, or merchandise.
- Privately-owned tractors used to tow a recreational trailer or trailer coach (not used for profit).
- Stake trucks, utility trucks, and panel trucks 8,000 lbs. or less and not used to tow a vehicle.
- Commercial trucks designed and used to tow a mobile home.

7351-7450	209	108
7451-7550	212	110
7551-7650	215	111
7651-7750	217	112
7751-7850	220	114
7851-7950	223	115
7951-8000	226	117
8,001-10,000	\$3.25 per hundred lbs. + \$8	
10,001-15,000	\$3.77 per hundred lbs. + \$8	
15,001 and over	\$4.39 per hundred lbs. + \$8	

When the full-year fee is \$50 or more, a 6-month plate may be purchased. There is a \$10 service fee.

The fees shown on this chart may be prorated to the owner's birthday in two situations:

- 1) if the individual owner has a pickup truck or van weighing over 8,000 lbs., or
- 2) if the individual owner of a passenger vehicle chooses to purchase a commercial license plate. The fee due is the weight fee or the ad valorem fee, whichever is greater.

To prorate, find the 12-month weight fee. Subtract \$8 and then divide by 12 (do not round off). Multiply this amount by the number of months needed. (See the "How to prorate number of months for original license plates" chart.) Round this amount to the nearest whole dollar. As a final step, add \$8.
