Choosing the proper type of MiLogin account for Michigan Transparency Network users

Background

MiLogin connects citizens to all State of Michigan services through one single user ID and allows users to access the Michigan Transparency Network (MiTN) application.

The MiTN application is the reporting system for:

- Campaign finance reports
- Lobbyist disclosure reports
- Personal financial disclosure
- Casino interest disclosure
- Legal defense fund disclosure

There are two types of MiLogin accounts:

- MiLogin for Citizens: Citizen Portal (https://milogin.michigan.gov/)
- MiLogin for Business: Business Portal (https://milogintp.michigan.gov/)

Choosing a MiLogin account

For the MiTN application, most filers will utilize a MiLogin for Citizens account.

If you represent a firm that provides disclosure services for other users of the system, including campaign finance, lobby disclosure and other disclosures, it may be necessary to utilize a MiLogin for Business account.

The following sections provide examples to aid in this determination.

MiTN examples for MiLogin

Campaign Finance

- Campaign committee members, including candidates, treasurers and record keepers: Use MiLogin for Citizens
- Data entry user (can input data into report, cannot submit/certify a report)
    - Use MiLogin for Citizens if an individual
    - Use MiLogin for Business if a firm / firm employee

Lobby Disclosure

- Lobbyist:
  - Use MiLogin for Citizens if working as an individual
  - Use MiLogin for Business if lobbyist is a firm / organization
- Lobbyist Agent: Use MiLogin for Citizens
- Data Entry User (can input data into report, cannot submit/certify a report)
    - Use MiLogin for Citizens if an individual
    - Use MiLogin for Business if a firm / firm employee

Other MiTN uses:

- Use MiLogin for Citizens if an individual
- Use MiLogin for Business if a firm / firm employee
