Instructions for Form 5338, Underpayment of Estimated Income Tax

Purpose

This form is used to compute penalty and interest for underpayment, late payment or failure to make payment of quarterly estimated payments. If you prefer not to file this form, Treasury will compute any applicable penalty and interest and bill you. Interest computed on this form and penalty charged for failing to file or underpaying estimated payments will be the same regardless of whether payment is received with the return or if Treasury sends a bill.

General Instructions

Note: If line 6 less your withholding and any payments made on your behalf by a partnership is less than \$100, **STOP**. Do not complete this form.

Use this form to determine if penalty and interest are due for failing to make estimated payments or for underpaying the estimated tax due. Penalty and interest can be charged if the payment was insufficient or late in any quarter. This is true even if the return computes to a refund when filed. Interest and penalty are figured separately for each due date and may be due even if an earlier underpayment is made up with an overpayment later.

The estimated tax payments must be made timely, in four equal installments, and the sum of the installments must equal the lesser of:

- 70% of the current year tax, or
- 70% of the prior year tax

Penalty and interest may be avoided and this form should not be filed IF:

- The preceding year had no tax liability (if required to file), or you were not required to file.
- The total tax after withholding and credits is \$100 or less.
- Estimated payments were received in four equal, timely installments and were at least 70% of the current or prior year tax.

Where to Get Forms

If you are required to make estimated tax payments visit www.michigan.gov/citytax to obtain *2025 City Estimated Individual Income Tax Voucher* (Form 5123).

Line-by-Line Instructions

Before completing Part 1, verify that the total tax after withholding and credits is more than \$100. If the result is \$100 or less, do not complete this form.

Part 1: Estimated Tax Required for the Year

Line 4: Enter the amount of tax from the immediately preceding tax year less credit for taxes paid to another city. If no prior year return was required or you had no liability, enter zero; penalty and interest for underpayment of estimated income tax is not applicable.

Line 5: The City of Detroit Income Tax Return (Form 5118, 5119 or 5120) must be completed prior to completion of this form. Enter the amount of the current year tax less credit for taxes paid to another city. If \$100 or less, do not complete this form.

Line 9: Enter estimated payments made during the quarter and one-fourth of your total withholding and taxes paid by partnerships. One-fourth of your total withholding and taxes paid by partnership are considered paid in each quarter.

In column A, enter payments made on or before April 15, 2024. Column A will also include any overpayment from 2023 that has been credited forward to 2024, to be applied to the first installment.

In column B, enter payments made after April 15, 2024 and through June 17, 2024. In column C, enter any payments made after June 17, 2024 and through September 16, 2024. In column D, enter any payments made after September 16, 2024 and through January 15, 2025.

Note: Do not enter extension payments on this form. Any payments received after January 15, 2025 are not considered estimated tax payments for tax year 2024.

Part 2: Figuring the Interest

Part 2 computes interest to April 15, 2024, or the date of payment, whichever is earlier. This part of the form breaks down the underpayments to the payment period they are due, then gives the interest rate for that period. Interest is figured for the number of days the installments remained unpaid. All payments are applied to any underpayment first, regardless of when the payment is received. The balance (if any) is applied to the next period.

Note: Complete lines 9 through 20 for column A before going to column B, etc. Only complete each column to the date the payment was made. If the total underpayment for any period was not paid with one payment, several calculations may be required. Include a separate sheet if necessary.

Example: Your tax due each period is \$2,000. You have an underpayment of \$1,000 for the first period (due April 15). On June 10 you send \$2,000 to pay the second installment. But, \$1,000 of this payment goes toward your \$1,000 underpayment first. Interest is computed on \$1,000

from April 15 to June 10 (56 days). The remaining \$1,000 is applied to your second installment payment, creating a second period underpayment of \$1,000.

Interest will continue to accrue on this \$1,000 until another payment is received.

Interest rates are set by Treasury twice each year for six-month periods starting January 1 and July 1. The rate is 1 percent above the prime rate in Michigan. For example, if the Michigan prime rate is 5 percent, your interest rate for completing Form 5338 is 6 percent for that six-month period. For current interest rates, visit our website at www.michigan.gov/taxes.

Part 3: Figuring the Penalty

Line 23: Enter the date the full payment was completed.

Line 24: Enter the number of months from line 22 to line 23. Any fractional months count as whole month.

Line-by-Line Instructions

Line 1: Enter total income earned in the period identified in each column. Each column is accumulating and should include the previous column plus any additional income earned to date. The total of line 1, column D must equal the total amount of income subject to tax. This amount should match the amount reported on line 13 from Form 5118, line 16 from Form 5119, or line 29 from Form 5120.

Line 4: Enter total exemption allowance claimed on Form 5118 line 14, Form 5119 line 17, or Form 5120 line 30.

Line 6: Enter current tax rate from the City of Detroit Income Tax Return.

- Resident - 2.4%
- Nonresident - 1.2%
- Part-year residents should use the appropriate rate based on residency status during the quarter.

Line 16: Enter the smaller of lines 14 or 11, and enter the result on line 8, page 1. See instructions for Parts 1 through 3 to complete the form.
