City of Detroit Partnership Renaissance Zone Schedule

General Information

Certain geographic areas within Detroit are designed as Renaissance Zones. This designation grants tax relief to qualified partnership located and conducting business activity within a Detroit Renaissance Zone. In conjunction with the designation of these zones, the Detroit Income Tax Ordinance was amended effective January 1, 1997, to include a Renaissance Zone deduction.

Claiming the Renaissance Zone Deduction

A partnership that is located and conducting business activity in a Detroit Renaissance Zone that files a Statement of Eligibility with the City of Detroit, and obtains approval for tax relief, is qualified to claim the deduction. If the partnership elects to pay the tax for the partners, the deduction is claimed on the *City of Detroit Income Tax Partnership Return* (Form 5458). Otherwise, the deduction is passed through to the partners who claim the deduction on their City of Detroit individual income tax return.

Deduction Disqualifiers

A partnership is not eligible to claim a Renaissance Zone deduction if the partnership:

- Is delinquent in filing or paying any of the following state or local taxes: Michigan single business tax, Michigan income tax, city income tax, Act 198 industrial abatement tax, commercial abatement tax, enterprise zone tax, city utility tax or general property taxes on real or personal property.
- Owns residential rental property and did not file an affidavit with the Detroit City Treasurer's Office by December 31 of the prior tax year attesting that the property is in substantial compliance with all applicable state and local zoning, building and housing laws or codes.
- Is located within Detroit outside of a Renaissance zone and moves to a location within a renaissance zone in Detroit without approval of the City.
- Relocates more than 25 full-time equivalent jobs from one or more non- Renaissance zone local governmental units (city, village or township) and any of the local government units from which a job was relocated adopts a resolution objecting to the relocation within 60 days of being notified of the job relocation by the business.

Qualification Date

A partnership becomes a qualified taxpayer on the first day after December 31, 1996, that the partnership is located and conducting business activity in a Detroit Renaissance Zone. The qualification continues until the partnership ceases to be located and conducting business activity in a Detroit Renaissance Zone or until expiration of the Renaissance Zone designation.

Deductible Income

A partnership may deduct that portion of its net income from business activity within a Detroit Renaissance Zone. Business activity consists of two components:

- Adjusted ordinary business income; and
- Income not included in adjusted ordinary business income (apportioned income).

Business income from activity conducted within a Detroit Renaissance Zone is determined via a two-factor Renaissance Zone allocation formula. Income not included in adjusted ordinary business income (apportioned income) is apportioned based upon situs of the income, the type of partner and/or domicile of the individual resident or nonresident partner. Income used to calculate any other deduction allowed by the income tax ordinance and income derived from illegal activity shall not be used to calculate this deduction.
