PREFACE

COMMERCIAL, INDUSTRIAL, AND UTILITY PROPERTY TAX LEVY REPORTS

Act No. 332, Public Actsof 1993, which became law on December 31, 1993, changed the way local assessors reported their tax levy information to the Property Tax Division beginning in the 1993 tax year. Prior to that year, local assessors reported Ad Valorem property taxes on one report. This report was used to compute both the statewide average tax rate and to provide the basis for revenue sharing payments. Beginning with the 1993 tax year, the change in the law required the assessor to file two reports; one to report the State Equalized Value of all classes of property, real and personal, and another to report the the State Equalized Value of Commercial, Industrial, and Utility classifications of property only.

On March 15, 1994, Proposal A was adopted by Michigan voters. Prior to Proposal A, State Equalized Value (SEV) was used in calculating property taxes. As established by Proposal A, beginning with the 1995 tax year, and continuing with the 1996 tax year, TAXABLE VALUE is used as the base for calculating property taxes and is used instead of SEV throughout this book.

The information in this book is based on the combined total TAXABLE VALUE of Commercial, Industrial, and Utility classes of property, real and personal.

County, township, city, and village Taxable Values, millage rates, and tax levies are included in this book. School district information (K-12, Intermediate School District, and Community College) is also included.

The State Education Tax of 6 mills is included in the county information pages in this book. It is also included in the 1995 tax year information on page 2.

For Revenue Sharing information based on ad valorem property, please refer to the STC book entitled, "Ad Valorem Property Tax Levy Report".

TOTAL TAXES LEVIED		\$3,252,261,807.48	100.00%

NOTE: The Average Rate of \$50.85 is determined by dividing the 1996 tax levy by the 1996 Taxable Value. This rate becomes the Average Rate used to calculate 1997 taxes levied against State Assessed Properties.

- Beginning with the 1995 tax year, Taxable Valuations, instead of State Equalized Values, are used to determine tax levies.
- The combined State Equalized Value total for Commercial, Industrial, and Utility property is not included in this book.
