Scott Darragh prepared this report under the direction of Mark P. Haas, Director, and Howard Heideman, Director of Tax Policy Analysis, Office of Revenue and Tax Analysis (ORTA), Michigan Department of Treasury. Eric Krupka compiled the data used for this report. If there are any questions or comments on this statistical information or its interpretation, please call Scott Darragh, Office of Revenue and Tax Analysis, Department of Treasury, (517) 373-2697.

This report is available electronically at the Department of Treasury's Web site: [www.michigan.gov/treasury](http://www.michigan.gov/treasury).

**MICHIGAN INCOME, INCOME TAX, AND PROPERTY TAX CREDITS  
BY SCHOOL DISTRICT  
2000**

The report presents statistics on Michigan income, income tax, and property tax credits. The data are from 2000 Michigan income tax returns tabulated by school district based on school district codes entered by taxpayers. While informative, the statistics in this report should be interpreted with some caution.

It is not possible to place all returns in the correct school district, since 14.2 percent of total returns and 11.3 percent of property tax claims listed no school district code or a nonexistent code. Returns without a valid school district code are listed separately at the end of each table.

In addition, some taxpayers may have mistakenly listed an incorrect school district code. For example, Bloomfield Township in Oakland County is split among a group of school districts, while Bloomfield District #1 and Bloomfield Township District 7F are in Huron County. Approximately 90 percent of the returns listing one of the codes for these Huron County districts also report a zip code located in Oakland County. To the extent taxpayers erroneously categorized themselves, the data for those districts are incorrect.

Finally, the average values for a school district do not describe the distribution of income or tax liability among taxpayers within the district. Districts with similar averages may have significant variation in the distribution of income or tax liability.

### **Table 1**

Table 1 presents summary statistics by school district. These summary statistics include average adjusted gross income (AGI), average tax paid both before and after credits, the ratio of property tax credits claimed (including farmland preservation credits) to income tax returns filed, average property tax credit, and average homestead property tax credit (excluding farmland credits) for those receiving these credits. After each fiscal variable, the district's ranking relative to all districts for the variable is given. A ranking of 1 indicates the highest average or ratio.

For example, the Alcona School District had an average AGI of \$32,817 in 2000, with a ranking of 426 out of 555 school districts. The average tax after credits was \$697. The ratio of property tax credits to income tax returns filed was 20.5 percent. The average property tax credit was \$355, ranking 391 among the school districts. The average homestead property tax credit, excluding farmland credits, was \$345, ranking 371.

### **Table 2**

The basic income tax data are reported in Table 2, including federal AGI, Michigan taxable income (after adjustments and minus personal exemptions), household income (used for property tax credit computations), and net tax paid. In the Alcona School District, for example, 2,980 returns had AGI totaling \$97.8 million. After exemptions and adjustments, taxable income totaled \$55.8 million. There were 721 returns that reported household income (used in computing homestead property tax credits) totaling \$13.1 million. The total net income tax paid after all credits was \$2,077,437.

### **Table 3**

Table 3 includes several categories of property tax credits for each school district and the total number and amount of property tax credits for each school district. In the Alcona School District, for example, 262 returns filed by general taxpayers (i.e., taxpayers who are not senior citizens or disabled) claimed homestead property tax credits totaling \$69,476; 276 returns filed by senior citizens claimed homestead credits totaling \$123,455; 31 returns filed by eligible veterans and blind persons claimed homestead credits totaling \$2,777; 38 returns filed by paraplegics, quadriplegics, hemiplegics, and totally and permanently disabled persons claimed homestead credits totaling \$13,939; and 3 Farmland Preservation credits were claimed totaling \$6,885. In the Alcona School District overall, 610 property tax credits were claimed, totaling \$216,532. The data count persons who claim both a homestead property tax credit and a farmland credit twice.
