

STATE OF MICHIGAN  
DEPARTMENT OF TREASURY

RICK SNYDER  
GOVERNOR

NICK A. KHOURI  
STATE TREASURER

**DATE:** October 22, 2018  
**TO:** Members of the State Tax Commission  
**FROM:** Heather S. Frick, Executive Director  
**SUBJECT:** Pipeline Economic Factor

In 2010, the State Tax Commission approved an economic factor for ANR Pipeline and Mid-Michigan Gas Storage. Those factors began for the 2011 year at 65% and moved in increments of 5% down to 50% for the 2014 year. We discussed a possible factor for Great Lakes Gas Transmission and determined at that point, a factor was not indicated for Great Lakes Gas Transmission.

In 2013, the Commission approved a 40% economic factor for the 2014 Great Lakes Gas Transmission and amended the prior factor adopted in 2014 for ANR Pipeline and Mid-Michigan Gas Storage to 40%. The Commission adopted the same factors for the 2015, 2016, 2017 and 2018 years. In 2018 staff received a request for and the Commission approved the same 40% factor Northern Natural Gas Company, which transports natural gas from Texas and Oklahoma to the upper Midwest.

After meeting with representatives from the pipeline companies and further review of available data, staff recommends the Commission adopt the same factor again (40%) for the 2019 year for ANR Pipeline, Mid-Michigan Gas Storage, Great Lakes Gas Transmission and Northern Natural Gas Company.
