Financially Distressed Cities, Villages, and Townships (FDCVT) Grant Program

Background

For FY 2025, the Michigan Legislature appropriated \$2.5 million for the Financially Distressed Cities, Villages, and Townships (FDCVT) grant program to be granted to cities, villages, and townships that have one or more conditions that indicate probable financial distress, as determined by the Michigan Department of Treasury (“Treasury”) (see 2024 Public Act 121, Section 956).

In addition, Treasury has \$0.01 million of excess FDCVT funds available from the FY 2024 appropriation. This amount is derived from \$0.01 million of unspent grant funding.

Purpose

The purpose of the grant program is to provide grants to financially distressed cities, villages, and townships with one or more conditions that indicate probable financial distress. Grant funding is intended to be used to pay for specific projects or services that move the city, village, or township toward financial stability. The cities, villages, or townships must use the grants to make payments to reduce unfunded accrued liability; to repair or replace critical infrastructure and equipment owned and maintained by the city, village, or township; to reduce debt obligations; for costs associated with a transition to shared services with another jurisdiction; or to administer other projects that move the city, village, or township toward financial stability.

The Michigan Legislature stipulated that Treasury shall award no more than \$2.0 million to any city, village, or township.

Criteria

1. Michigan city, village, or township with one or more conditions that indicate probable financial distress.
2. A completed application with detailed information.
3. The city, village, or township must demonstrate how the budgeted costs will lead toward financial stability.
4. Priority is given to any applicant:
 - a. with two or more conditions that indicate probable financial distress,
 - b. in which a financial emergency has been declared in the past ten years,
 - c. that has an approved Deficit Elimination Plan for the General Fund, and/or
 - d. in which the fund balance of the General Fund has been declining over the past five years and the fund balance is less than 3% of the General Fund Revenues.
