

Technical Notes

2016-17 Promise Zone Cumulative Cohort Summary Reports

This report was created by the Center for Educational Performance and Information (CEPI) for the Michigan Department of Treasury.

General Information

- 1.0 The report is required for longitudinal reporting on Promise Zone scholarship recipient outcomes in accordance with MCL 390, Public Act 549 of 2008, §390.1667(7)(f) as amended.
- 2.0 Low counts and values are suppressed to protect the privacy of individual students. Suppression rules were determined according to a discussion with the U.S. Department of Education. Details can be found below in the notes section.

Data Sources

- 1.0 Annual rosters of Promise Zone scholarship recipients provided to CEPI by each Promise Zone
- 2.0 Student Transcript and Academic Record Repository (STARR) for Michigan Postsecondary Enrollment and Award Data (all data collected through 2016-17)
- 3.0 National Student Clearinghouse (NSC) for Non-Michigan Postsecondary Enrollment and Award Data (data purchased by CEPI through 2016-17)
- 4.0 Graduate and Dropout Application (GAD)

Base Population

- 1.0 Counts include only public school graduates who have received Promise Zone scholarship funds. Non-public and homeschooled students are not included.

Output

- 1.0 Each zone's report appears in a separate worksheet within this Excel file.

Notes

- 1.0 Cohorts of Promise Zone recipients are based on their high school graduation year, regardless of when they first received Promise Zone funds.
- 2.0 Counts and rates are calculated for 6 consecutive years beginning with the first academic year after the student's high school graduation year, regardless of when the student first received Promise Zone funds.
- 3.0 All counts except the Recipient Count are cumulative year to year.
- 4.0 Graduation Rates are cumulative year to year. Rate = total count of college graduates and certificate holders in cohort divided by the Cohort Count.
- 5.0 Because students can re-enroll after not enrolling for one or more years, it is possible for the No Longer Enrolled, No Award counts to decrease in any given year.
- 6.0 Awards counted represent the single, highest-level award achieved by the student through the end of the reporting year.
- 7.0 If a student earns an award, then earns a higher-level award in a subsequent year, the student will be counted at the higher level award in that reporting year and the lower level award will no longer be counted. Thus, it is possible for cumulative counts to go down between any year and subsequent year for the lower level awards.
- 8.0 A lower level award received after a higher-level award will not supersede the higher level award.
- 9.0 Any college credits earned while a student is in High School (e.g. dual enrollment credits) are not attributable to Promise Zone funds, and are not included in the 24 credit calculations.
- 10.0 Because the report includes only those students who received funds in 2016-17, and this is the first collection year, any graduation year cohorts prior to 2016 are likely not complete, so graduation rates cannot be calculated
- 11.0 Suppression Rules:
 - If the cohort count is less than 10, all values are suppressed, with the exception of Average Months to 24 Credits and Tracking Year. Cohort count will be denoted with <10, counts fewer than 3 are denoted with <3, and others are denoted with *.
 - All counts fewer than three are suppressed and shown as <3, regardless of cohort size.
 - Graduation rates are suppressed on a sliding scale based on cohort size. The limit is shown in the suppressed cell (e.g. <50%), unless the cohort count is less than 10, in which case it is shown as *.
 - In the event that a low earned award count could be determined based on other awards earned and the Total Grads column, all award counts not already suppressed will be suppressed with a *.

2016-17 Promise Zone
Baldwin Cumulative Cohort Summary Detail

Promise Zone Identifier	Recipient Graduation Year Cohort	Reporting Year	Recipient Count	Tracking Year	Cohort Count	Achieved 24 Credits	Average Months to 24 Credits	Earned Certificate	Earned Associate	Earned Bachelor s	No Longer Enrolled, No Award	Total Graduates and Certificate Holders	Rate Year	Graduation Rate
