

New Jobs Training Programs 2020 Report

**Prepared by
Office of Revenue and Tax Analysis
Michigan Department of Treasury**

Scott Darragh prepared this report based on reports submitted by the participating community colleges and withholding diversions reported by participating employers.

This report is required by Section 713 of the Income Tax Act, and will be transmitted to the Governor, the Clerk of the House of Representatives, the Secretary of the Senate, the chairperson of the House Committee on Commerce and Tourism, the chairperson of the Senate Committee on Economic and Small Business Development, the chairperson of the Senate Committee on Education and Career Readiness, the chairperson of the House Appropriations Subcommittee on Licensing and Regulatory Affairs, the chairperson of the Senate Appropriations Subcommittee on Licensing and Regulatory Affairs, the chairperson of the Senate Appropriations Subcommittee on Talent and Economic Development, the chairperson of the House Committee on Tax Policy, the chairperson of the Senate Committee on Finance, and the chairperson of the Michigan Strategic Fund in accordance with Section 713.

**New Jobs Training Programs
2020 Report
June 2021**

Public Acts 359 and 360 of 2008 amended the Community College Act and the Income Tax Act, respectively, to allow a community college and an employer to enter into an agreement to provide training for new jobs and use the income tax withholding on the new jobs to pay for the costs of the training. Colleges and employers may enter into new agreements until December 31, 2023. A community college district may sell revenue bonds to finance training programs, in anticipation of the withholding payments due under an agreement with an employer. The aggregate outstanding obligation of all agreements entered into under the New Jobs Training Program shall not exceed \$50 million in any calendar year. As contract expenses are incurred and reimbursed, the available balance under the \$50 million cap increases.

Public Act 38 of 2012 requires the Department of Treasury to produce a report each year on the operation and effectiveness of the new jobs training programs. This report focuses on the 204 agreements in effect at some point during 2020. A total of 181 agreements involving 22 community colleges remained in effect at the end of 2020, and those agreements are presented in Table 1 grouped by community college.

The primary business code for each of the agreements is shown by college in Table 2. The agreements are generally numbered by the date of the agreement. The most common industry for an employer with an agreement is motor vehicle and equipment manufacturing, with the original agreement amounts within this industry totaling almost \$41.5 million for 31 agreements. Only two other industries have original agreement amounts totaling more than \$2.0 million. See Table 3 for a distribution by business code of the agreements that were in effect during 2020.

Table 4 shows the amount of the original contract, reflecting the potential issuance of revenue bonds by community colleges for the contracts that reported training activity during 2020. During 2020, \$3,033,925 in training expenses or debt were incurred and these expenses are also listed in Table 4. The total is lower than in recent years, most likely due to the pandemic. The contracts with training activity in 2020 had an original contract value of \$62.8 million. Table 5 presents the number of new employees who were involved in the training programs during 2020, with the totals presented for each community college.

Since the program began in 2010, almost \$52.9 million in income tax withholding has been reported to Treasury as applied to training costs, with almost \$9.2 million in net withholding reported during 2020. Table 6 presents the original contract amounts by community college, along with the withholding diverted to the colleges to offset training costs. The withholding amount in Table 6 is based on reports filed by participating employers with Treasury through December 31, 2020, and may differ from the withholding amount reported by the colleges on their annual reports as some payments are in transit at the end of the year. For 2020, community colleges reported \$9.4 million in withholding used to offset training costs. The outstanding balance as of the end of 2020 was \$42.06 million. This means there was a balance of \$7.94 million available for new agreements as of December 31, 2020, and new agreements have been executed in 2021. The outstanding balance reflects withholding diversions to cover training expenses, agreements that were cancelled prior to the commencement of training, amendments to agreements that either raise or lower the contract amount, and agreements that were terminated before all the training proposed originally was completed.

Table 1
Community Colleges with Agreements in Effect under
New Jobs Training Program
As of December 31, 2020

<u>Community College</u>	<u>Number of Agreements</u>
Alpena Community College	1
Bay College	1
Delta College	2
Grand Rapids Community College	13
Henry Ford College	5
Jackson Community College	14
Kalamazoo Valley Community College	1
Kellogg Community College	7
Kirtland Community College	3
Lansing Community College	12
Macomb Community College	15
Monroe County Community College	3
Montcalm Community College	7
Mott Community College	5
Muskegon Community College	3
North Central Community College	6
Northwestern Michigan College	36
Oakland Community College	27
St. Clair County Community College	3
Schoolcraft College	9
Washtenaw Community College	5
Wayne County Community College	3
Total	<hr/> 181

Note: An additional 100 agreements have either concluded or been terminated by the end of 2020.

Table 2
Agreements under New Jobs Training Program
By Community College and Business Code
In Effect During 2020

<u>Community College</u>	<u>SIC Code</u>	<u>Industry</u>	<u>Original Agreement Amount</u>
<i>Alpena Community College</i>			
Agreement 163*	353	Industrial trucks, tractors, trailers, and stackers	\$138,000
