This data has been collected and tabulated by Robert J. Ballard, Planning and Program Analysis Division and Howard Heideman, Taxation and Economic Policy Office (TEPO), under the general direction of John Anderson, Deputy State Treasurer.

INCOME, INCOME TAX, AND PROPERTY TAX CREDIT DATA BY SCHOOL DISTRICT, 1983

This report presents data from 1983 Michigan income tax returns tabulated by school district. This tabulation is based upon the school district code entered by taxpayers on individual income tax returns.

The basic income tax data are reported in Table 2, entitled "1983 Income and Net Tax Paid by School District," and Table 3, entitled "1983 Property Tax Credit by School District." The data presented in Table 2 are federal adjusted gross income (AGI), Michigan taxable income (AGI after adjustments and minus personal exemptions), household income used for property tax credit computations, and net tax paid, that is tax liability net of credits. Table 3 presents data for the number and amount of the several categories of property tax credits for each school district. Table 1 combines the information in Table 2 and Table 3 to provide summary statistics on income, income tax, and property tax credits. These summary statistics include average AGI, average tax paid both before and after credits, the ratio of property tax credits claimed (including farmland preservation credits) to income tax returns filed and, for those taxpayers receiving one, average property tax credit and average homestead property tax credit (excluding farmland credits).

The statistics in this report should be interpreted with some caution for several reasons. First, not all income tax returns are represented in this tabulation since 11.3% of total returns and 7.7% of property tax credit claims listed no school district code or a nonexistent code. These returns were excluded. Second, some taxpayers may have mistakenly listed an incorrect school district code. For example, the Bloomfield Hills School District is in Oakland County, while Bloomfield District #1 and Bloomfield Township Districts #4 and #7F are in Huron County. To the extent taxpayers miscategorized themselves, the data in those districts are incorrect. The third reason for caution is that as always,

averages may give a misleading picture in some instances. A \$300 average property tax credit for a certain school district, for example, may result from everyone in the district receiving about a \$300 credit or from many small credits and a few very large ones. The average property tax credit (or the average of any other fiscal variable in the study) for a district tells nothing about the distribution of those credits (or other variables) among taxpayers within the district.

How to Read Table 1

School districts are grouped by county in this table. After each fiscal variable, the district's ranking relative to all districts for that variable is given.

For example, the Alcona School District had an average AGI of \$14,321 in 1983, with a ranking of 510 out of 574 school districts. The average tax after credits was \$411. The number of property tax credits was 53.3% of the number of income tax returns filed, with an average property tax credit of \$323, ranking 443rd among school districts. The average homestead property tax credit was \$311, also ranking 443rd.

How to Read Table 2

School districts are again grouped by county in this table. In the Alcona district, for example, 1,769 returns had nonnegative AGI totaling \$25.3 million and 1,370 returns had nonnegative taxable income (after adjustments and exemptions) totaling \$14.9 million, and 952 returns reported household income (used in computing homestead property tax credits) totaling \$9.9 million. The total net income tax paid after all credits was \$563,445. The number of returns reported in each class is a count of returns with nonnegative values.

If there are any questions or comments on this statistical information or its interpretation please call Howard Heideman, Manager, Taxation and Economic Policy Office, Department of Treasury, (517) 373-9002.
