Acknowledgments

Denise T. Heidt prepared this report under the supervision of Howard Heideman, Director, Tax Analysis Division, Bureau of Tax and Economic Policy, Michigan Department of Treasury. Eric Krupka of Tax Analysis Division compiled the data used for this report. If there are any questions or comments on this statistical information or its interpretation, please call Denise T. Heidt, Tax Analysis Division, Department of Treasury, (517) 373-2697.

This report is available electronically at the Department of Treasury's Web site: www.michigan.gov/treasury.

**MICHIGAN INCOME, INCOME TAX, AND PROPERTY TAX CREDITS
BY SCHOOL DISTRICT
2003**

The report presents statistics on Michigan income, income tax, and property tax credits by school district. The data are from 2003 Michigan income tax returns tabulated by school district based on school district codes entered by taxpayers. While informative, the statistics in this report should be interpreted with some caution.

It is not possible to place all returns in the correct school district, since 6.9 percent of total returns and 2.5 percent of property tax claims listed no school district code or a nonexistent code. Returns without a valid school district code are listed separately at the end of each table.

In addition, some taxpayers may have mistakenly listed an incorrect school district code. For example, Bloomfield Township in Oakland County is split among several school districts, while the school district of Bloomfield Township 7F is in Huron County. Until 1999, there was also another school district in Huron County called Bloomfield District #1, which was subsequently split into four different districts in October 2000. Approximately 85 percent of the returns listing the codes for any of these Huron County districts report a zip code located in Oakland County. To the extent taxpayers erroneously categorized themselves, the data for those districts are incorrect.

Finally, the average values for a school district do not describe the distribution of income or tax liability among taxpayers within the district. Districts with similar averages may have significant variation in the distribution of income or tax liability.

Table 1

Table 1 presents summary statistics by school district. These summary statistics include average adjusted gross income (AGI), average tax paid both before and after credits, the ratio of property tax credits claimed (including farmland preservation credits) to income tax returns filed, average property tax credit, and average homestead property tax credit (excluding farmland credits) for those receiving these credits. After each fiscal variable, the district's ranking relative to all districts for the variable is given. A ranking of 1 indicates the highest average or ratio.

For example, the Alcona School District had an average AGI of \$36,143 in 2003, with a ranking of 334 out of 555 school districts. The average tax after credits was \$714. The ratio of property tax credits to income tax returns filed was 25.3 percent. The average property tax credit was \$397, ranking 411 among the school districts. The average homestead property tax credit, excluding farmland credits, was \$388, ranking 388.

Table 2

The basic income tax data are reported in Table 2, including federal AGI, Michigan taxable income (after adjustments and minus personal exemptions), household income (used for property tax credit computations), and net tax paid. In the Alcona School District, for example, 3,172 returns had AGI totaling \$114.6 million. After exemptions and adjustments, taxable income totaled \$65.9 million. There were 895 returns that reported household income (used in computing homestead property tax credits and home heating credits) totaling \$18.4 million. The total net income tax paid after all credits was \$2,263,397.

Table 3

Table 3 includes several categories of property tax credits for each school district and the total number and amount of property tax credits for each school district. In the Alcona School District, for example, 366 returns filed by general taxpayers (i.e., taxpayers who are not senior citizens or disabled) claimed homestead property tax credits totaling \$113,364; 347 returns filed by senior citizens claimed homestead credits totaling \$177,508; 43 returns filed by eligible veterans claimed homestead credits totaling \$3,174; 43 returns filed by blind, paraplegics, quadriplegics, hemiplegics, and totally and permanently disabled persons claimed homestead credits totaling \$15,879; and 3 Farmland Preservation credits were claimed totaling \$8,319. In the Alcona School District overall, 802 property tax credits were claimed, totaling \$318,244. The data count persons who claim both a homestead property tax credit and a farmland credit twice.
