The State Equalized Value (SEV) of the local unit as finalized by the State Tax Commission at their May 24, 2021 meeting is used to determine the certification level requirement for completion of the 2022 assessment roll. 2022 certification level requirements are not adjusted for changes in value occurring after 2021 state equalization.

A waiver may be granted to reduce the SEV used to calculate the certification level requirement for a township or city if the SEV is significantly influenced by the value of a single parcel or group of related parcels. To request a waiver, the township or city must submit STC Form 4742, *State Tax Commission Application for Waiver of Local Unit Certification Level*, along with documentation of a contract with an assessing officer that is certified at the required level to appraise and assume appeal responsibilities of the affected parcel(s). Form 4742 must be submitted no later than October 31, 2021.

The value of wind turbines in one or more units may be removed from the total SEV used to calculate required certification level requirements. To request a waiver, the local unit(s) must submit Form 4742, along with documentation indicating the value of wind turbines to be removed from the calculation. Form 4742 must be submitted no later than October 31, 2021.

The SEV requirements for townships and cities shall be adjusted annually by the rate of increase in the statewide SEV as compiled by the Property Services Division of the Michigan Department of Treasury. The rate of increase used to adjust the 2022 tax year certification levels was **4.88%**.
