

Governor Whitmer is focused on delivering for the Black community. Her administration made the biggest investments in Michigan's public schools ever, passed major criminal justice reforms, and put people back to work. The Governor made progress on kitchen-table issues—jobs, roads, water, education, childcare, and more—with the most diverse cabinet in state history and Michigan's first Black Lieutenant Governor, Garlin Gilchrist, by her side.

"Governor Whitmer and I are focused on the fundamentals," said Lieutenant Governor Garlin Gilchrist.

"Through historic circumstances, we have delivered historic results for working families and communities of color. We will keep standing tall for our values and making investments to put Michiganders first."
